Women in Apprenticeship & NonTraditional Occupations

What is an apprenticeship? Apprenticeship is an educational training strategy that prepares people for professional employment through a combination of classroom instruction and on-the-job training in a structured employment setting under proper supervision of a skilled worker which results in a industry recognized certification. The Women in Apprenticeship and Nontraditional Occupations grant initiative encourages women to pursue nontraditional careers in growing sectors such as IT and Advanced Manufacturing which have some of the highest paying occupations in the country.

Aid for books, work clothing, transportation and other needs are based on meeting eligibility requirements.

MISSION STATEMENT

The FEC is a business-led private non-profit corporation whose mission is to obtain public and private sector employment for the unemployed and the underemployed residents of the Greater Kansas City area. FEC accomplishes this goal by working in collaboration with businesses, local units of government, educational institutions, labor and community-based organizations. This partnership responds to employer needs while reducing unemployment, underemployment and the public dependency of area residents.
